

DOC AMOS

REP 2

Weapons	Hits	Nerve	Shoot	HtH
None	N/A	N/A	N/A	N/A

What he's Known for:

Unarmed

Healing Hands

Unarmed: The Doc can never be targeted or taken out of action, may not take shoot actions or enter HtH, & never counts as obscuring another target or impeding movement. In effect, he is treated as a token on the tabletop rather than an active participant in the carnage!

Healing Hands: Doc may take one special heal action per turn as part of his normal 3 actions as long as he is in base contact with a model that has suffered a number of under fire markers. He rolls a d20 & removes one under fire marker on a result of 1-10, two markers on a result of 11-17 & three markers on a result of 18-20.
